

Reverse 911 Has Arrived in Erving

Luke Hartnett has informed the Erving Elementary School that the Reverse 911 process is now available to the town of Erving. This process is a way for the town to communicate important information regarding the town and school via telephones and computers. For example, if there is a late cancellation of importance for the town or school, this information can be placed as a message and sent to your landline, cell phone, and/or email.

As Erving residents, you can become a part of this process by completing the following information and returning it to the school on the form by September 23. The data will then be entered into the Reverse 911 System. All families may have a maximum of five pieces of information: three telephone numbers, which can include cell phones and/or landlines, and two email addresses.

Please complete the form below and return it to the school by September 23 if you want to be included in the Reverse 911 System. Thank you.

Parent/Guardian Name:

Student's Name (please list all your children on this one form):

Address:

Telephone Number(s):

Cell Phone Number(s):

Email Address(es):
